45,000 students, 8,000 employees in teaching, research and administration, all working together to shape perspectives for the future – that is the University of Münster (WWU). Embedded in the vibrant atmosphere of Münster with its high standard of living, the University's diverse research profile and attractive study programmes draw students and researchers throughout Germany and from around the world.

The Department of Information Systems at WWU with its research network ERCIS – European Research Center for Information Systems – is an international network of scientists who passionately conduct research at the intersection of management and technology. The Chair of Information Systems & Business Process Management (Prof. Dr. Jan vom Brocke) is an internationally recognized team that is continuously gaining insights into the use of innovative digital technologies in business and society. The Chair is committed to working at the forefront of research and significantly advances practice in addressing real world challenges through digital technologies. We are constantly publishing in leading journals such as _Management Information Systems Quarterly_ (MISQ), _Information Systems Research_ (ISR), _Journal of Management Information Systems_ (JMIS), _Management Science_, and _MIT Sloan Management Review_ (MIT SMR), and we enjoy an active dialogue with thought leaders from industry and society._

As a member of ERCIS, you will be part of an international network with connections in more than 30 countries in Europe and beyond. You will work with renowned companies that are pioneers in the field of digitalisation – as well as with smaller companies and start-ups that will become future champions in digital innovation and transformation. Within this ecosystem you will design innovative solutions for tomorrow's economy and society, discuss and evaluate them in practice and publish their results in leading journals. The work at the chair is characterised by a focus on understanding and designing processes using digital technologies. As a Postdoctoral Researcher you will actively shape our research programme, contribute your own interests and thus also develop your own academic profile at the chair for a successful academic career.

The Department of Information Systems, Chair of Information Systems & Business Process Management at the University of Münster (WWU), Germany, is seeking to fill one or more positions of a

Assistant Professor (non-tenure) in
Business Process Management
Akademische Rätin/Akademischer Rat auf Zeit
(salary level A 13 LBesO)

at the earliest possible date. We are offering a three-year, fixed-term full-time position with the option to extend by an additional three years. The prospective candidate is required to teach four hours per week during the semester (4 SWS).

Your tasks:

 - _Developing and conducting research in information systems and business process management_
 - _Building a research profile with high visibility in academia and practice_
 - _Publishing in leading journals_
 - _Developing and implementing attractive teaching programs_
 - _Establishing your own research group, especially through the acquisition of research funds_
 - _Implementing your habilitation project_

Our expectations:

- *Higher education degree and completed doctorate in the field of economics, information systems, computer science or comparable*
- *Outstanding academic performance, e.g. proven by doctorate with distinction, publications, prizes or other*
- *High motivation to achieve ambitious goals in a high-performing team*
- *Sound knowledge and experience in research design, especially the planning and application of different research methods*
- *Strong interest in further deepening selected research methods as well as opening up new subject areas*
- *Ability to work in a team, mature communication skills, organizational skills as well as an independent and productive way of working*

What you can expect:

- *Highly attractive academic development opportunities in a high performing and welcoming team*
- *Solid scientific training, in particular publishing in top journals at A and A+ level*
- *Rich international network, especially brought about by the European research center ERCIS*
- *Inspiring interdisciplinary environment at the intersection of management and technology*
- *High-performing and highly motivated students from different disciplinary and cultural backgrounds*
- *Secure and economically attractive employment conditions, specifically in civil servant status*

The University of Münster strongly supports equal opportunity and diversity. We welcome all applicants regardless of sex, nationality, ethnic or social background, religion or worldview, disability, age, sexual orientation or gender identity. We are committed to creating family-friendly working conditions.

We actively encourage applications by women. Women with equivalent qualifications and academic achievements will be preferentially considered unless these are outweighed by reasons which necessitate the selection of another candidate.

For any questions about the content of the position please get in contact with Prof. Dr. Jan vom Brocke (jan.vom.brocke@uni-muenster.de). For any formal questions please get in contact with Dr. Michael Räckers (michael.raeckers@uni-muenster.de, +492518338075)

Are you interested? Then we look forward to receiving your application (Motivation letter, CV, Publication list) by **30 September 2023** to:

University of Münster
Department of Information Systems
Chair of Information Systems & Business Process Management
Prof. Dr. Jan vom Brocke
Leonardo-Campus 3
