

Call for Papers

**6th Annual Conference on
Subject-Oriented Business Process Management
(S-BPM ONE 2014)**

"Value.Net.Works"

April 22-23, 2014

Moscow, Russia

in cooperation with

**National Research University
Higher School of Economics
Moscow**

Scope

S-BPM ONE is established as the primary venue of conceptual and practical innovations in the field of Subject-Oriented Business Process Management. After initiating the transition from primarily function-oriented BPM towards stakeholder-driven transformation of organizations based on BPM in 2012 and 2013, network-driven BPM will be explored for value creation in the 6th International S-BPM ONE. Becoming aware of the various contextual factors of value creation in and through process networks, we invite interested practitioners and researchers to contribute their experience and knowledge to the Value.Net.Working.

Topics of Interest

The topics of interest include, but are not limited to

- Governing Process Networks
- Embedding Network and Actor Theories in S-BPM
- Expressing Network Process' Values
- Enriching BPMN towards a Network Process Management Notation
- Dynamic Stakeholder Management based on S-BPM
- Enabling Organizational Resilience based on (S-)BPM
- Open Process Access in BPM Networks
- Advancing Social BPM towards Subject-Oriented BPM
- Repositioning Agent-based Systems for Value-based BPM
- Process Values 'in the Cloud'
- Value Emergence in Process Networks
- Enterprise Architecting for Value-based Process Networks
- Enriching Cross-organizational Business Processes for Value Creation
- Repositioning BPM in Organizational Learning and Knowledge Management Networks

Keynote

- Prof. Dr. Michael Rosemann, Queensland University of Technology, Brisbane/Australia
- Dr. Jorge Sanz, IBM Research, IEEE Fellow, San Jose/USA

Important Dates

- October 15, 2013: Due date for paper submission
- December 15, 2013: Notification of Acceptance
- January 15, 2014: Camera-ready version of accepted papers
- April 22-23, 2014: S-BPM ONE 2014 Conference

Types of Submission

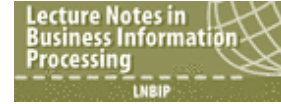

Please find the format of submission convenient for you:

- (S-)BPM Research Papers as the way to present quality state-of-the-art research in all related areas. Of particular interest are methodological approaches to support networked value creation. For researchers with interest in BPM, value creation, and networked systems this is a primary citation source. Submissions should not exceed 20 pages.
- (S-)BPM Experience or Application Studies for developers or users of (S-)BPM systems having an interesting experience report to share about a network BPM product, solution or application. Submissions should not exceed 15 pages.
- (S-)BPM Interactive Education Material for facilitators wanting to share knowledge about learning to create value through BPM in network socio-economic systems. The education track is an excellent opportunity to co-create content and elaborated methodological findings. Submissions should not exceed 20 pages. They should include empirical evidence.
- (S-)BPM demos: This track is for practical work that can be presented to receive focused feedback on BPM-driven value creation, and to demonstrate network capabilities. Submissions should not exceed 10 pages.
- (S-)BPM Value Network Challenge contributions: Specifications of network or cross-enterprise approaches to value creation targeting developers of S-BPM languages, systems and techniques are invited. They should clearly demonstrate the involvement of network actors and value carriers in socio-economic networks. (Research) Prototypes will be allowed for in-depth presentations. Each submission should contain sufficient details to judge the originality of the approach. It should not exceed 15 pages.
- S-BPM Gong Show contributions: The Gong Show will consist of short presentations about visionary and outrageous ideas towards S-BPM-based value creation in socio-economic networks. Selection will be based on submitted abstracts. If you have far-reaching ideas about either methodology or technology this the opportunity to share, get feedback, and even win an award. The submission required is a 5-page extended abstract.
- S-BPM Young Researcher Networking Event contributions: Master or PhD students in advanced topics of S-BPM, either in early stage or late stage, are encouraged to share ideas with peers and receive feedback in a relaxed atmosphere with senior people from research and development communities. Supervisors of master or PhD students are kindly asked to encourage their respective students' participation. The submission required is just a one page abstract reflecting the theme and status of the work.

For interaction and presentation various formats will be offered, enriched with keynotes to specific BPM topics.

Publication

Accepted papers will be published by Springer in [LNBIP - Lecture Notes in Business Information Processing](#) (scientific track) or [CCIS - Communication in Computer and Information Science](#) (other). Authors of selected papers might also be invited for publishing their work in national or international journals, e.g., Universal Access in Information Society, Journal of Interaction Science, Int. J. of People-Oriented Programming, Social Technologies.

Steering Committee

- Albert Fleischmann, Metasonic AG, Pfaffenhofen, Germany
- Werner Schmidt, Technische Hochschule Ingolstadt, Germany
- Christian Stary, Johannes Kepler University, Linz, Austria

Chair

Alexander Gromoff, National Research University Higher School of Economics, Moscow

Program Committee

- Reza Barkhi, Virginia Tech, USA
- Jörg Becker, Westfälische Wilhelms-Universität Münster, Germany
- Nouredine Belkhatir, University of Grenoble-LIG France, France
- Onur Demirors, Middle East Technical, Ankara, Turkey
- Herbert Fischer, University of Applied Sciences Deggendorf, Germany
- Peter Forbrig, University of Rostock, Germany
- Andreas Gadatsch, Hochschule Bonn-Rhein-Sieg, Germany
- Alexander Gromoff, National Research University Higher School of Economics Moscow, Russia (Chair)
- Christian Huemer, Technische Universität Wien, Austria
- Ebba Thora Hvannberg, University of Iceland, Iceland
- Mikhail Komarov, National Research University Higher School of Economics, Moscow, Russia
- John Krogstie, Norwegian University of Science and Technology, Norway
- Matthias Kurz, Datev eG, Germany
- Juhnyoung Lee, IBM T. J. Watson Research Center, USA
- Franz Lehner, University of Passau, Germany
- Svetlana Maltseva, National Research University Higher School of Economics, Moscow, Russia

- Jan Mendling Wirtschaftsuniversität Wien, Austria
- Tansel Özyer, TOBB Economics and Technology University Ankara, Turkey
- Adrian Paschke, Freie Universität Berlin, Germany
- Manfred Reichert, Ulm University, Germany
- Wolfgang Renninger, University of Applied Sciences Amberg-Weiden, Germany
- Susanne Robra-Bissantz, Technical University of Braunschweig, Germany
- Gustavo Rossi, LIFIA, Universidad Nacional de La Plata, Argentina
- Werner Schmidt, Technische Hochschule Ingolstadt, Germany
- Detlef Seese, KIT - Karlsruhe Institute of Technology, Germany
- Robert Singer, FH Joanneum University of Applied Sciences, Austria
- Christian Stary, Johannes Kepler University, Austria
- Armin Stein, Westfälische Wilhelms-Universität Münster, Germany
- Victor Taratoukhine, Westfälische Wilhelms-Universität Münster, Germany
- Alexandra Totter, ByElement GmbH, Switzerland
- Eric Tsui, The Hong Kong Polytechnic University, China
- Oktay Türetken, Eindhoven University of Technology (TU/e), The Netherlands
- Jan vom Brocke, University of Liechtenstein, Liechtenstein
- Jan Verelst, Universiteit Antwerpen, Belgium
- Guido Wirtz, University of Bamberg, Germany
- Cornelia Zehbold, Technische Hochschule Ingolstadt, Germany

Host & Location

National Research University Higher School of Economics, Moscow
